1. Objective: To develop and complete specifications for a suitable stainless steel box, which is both corrosive and abrasive resistant when placed in a variety of soils. Box to be easily opened and closed, having a closure intended to provide a hermetic seal and be rugged enough to stand rough handling.
2. Present Phase: Completion of Specifications and Final Report.
3. Present Status:
  - a) Soil sample analysis completed.
  - b) Revision of final drawings completed in conjunction with Technology Engineering Company, Inc.
4. Packaging: Completed.
5. Future Work:
  - a) Publication of Final Report. No target date can be given as this work depends upon return of the rough draft report by the client.
  - b) Closure of case. No target date can be given as this work depends upon return of the rough draft report by the client.
